

What are we learning in Primary?

Forces

Switched On

CLL

In CLL, we are exploring the book “A Squash and a Squeeze” by Julia Donaldson. We will be exploring and learning about a variety of different forces including.

Push/pull—toy cars/trains over different surfaces

Twist—spinning toys

Squash/squeeze—messy play and play dough

Maths

In Maths we are learning all about numbers, size, weight and length. This will include feeling and exploring different weighted items and where possible, using different ways to measure an object’s length or weight.

Topic

In topic, we are learning about and exploring different forces. This will include exploring pushing and pulling toys, squashing, squeezing and twisting.

CLL

In CLL, we are exploring the book “Don’t Wake the Baby” by Jonathan Allen or “I Fall Down” by Vicki Cobb. As well as developing our communication, reading and writing skills, we will be exploring cause and effect through tac-pac and exciting sensory journeys.

Maths

In Maths we are learning all about numbers, weight and money. We will be exploring, sorting and exchanging money. We will be feeling and exploring different weighted items and where possible, using different ways to measure an object’s length or weight.

Topic

In topic, we are learning about cause and effect, including exploring a variety of different cause and effect toys. The students will be encouraged to activate, stop and ask for ‘more’, through their own personalised communication methods.
